

INTERIEUR 02

18th international biennale for creative interior design
18'27 October 02, Kortrijk Xpo Belgium

Every designer is born with a vision that inspires the imagination to perceive beauty. A magical moment. But it's much more than the simple act of coming up with a new concept. It's the creative process of transforming something from nothing which stimulates the desire to invent surroundings with outstanding aesthetic value. Furniture that express the designer's individual personality while portraying an interior's distinct character. By supporting Interieur 02, Fortis is committed to furthering the progress of today's young talents. And laying the foundations for those of tomorrow who will mould the interior living and working environments of our future.

**Our commitment
to new ideas.**
